NATIONAL SANITARIUM FOR SUFFERING HUMANITY.

National Colony and Sanitarium for Consumptives will Furnish a Haven of Rest and Comfort for Thousands of Sufferers.

**THE WORK THOROUGHLY ORGANIZED AND
VARIOUS COMMITTEES APPOINTED.**

A Temporary Place Provided on Clarks Ranch for Accommodation of Patients Who Come Before the Wells and Buildings are Ready on the Sanitarium Grounds.

LAST FRIDAY AND SATURDAY, marked an important period in the advancement and prosperity of Deming. On those days James R. Waddill, president of the National Sanitarium Association, and Dr. W. H. Mayfield, chief surgeon, were in our town and made the final arrangements for beginning the work of the National Colony and Sanitarium for Consumptives. On Friday they visited the land owned by the association, and completed some plans in regard to the division and arrangement, and in the evening they addressed a large audience at the opera house, giving an outline of the cause which brought the association into existence and the character and extent of the work to be done by it, and at the close of the speaking, local committees were appointed to conduct the business of association at this end of the line. On Saturday afternoon the committees met with them at the Adelphi Club rooms and discussed plans for the advancement of the work. We give below a brief account of what was done at these two meetings.

Origin of the Movement:

"God moves in a mysterious way his wonders to perform." Some years ago the only son of a leading physician in St. Louis Missouri, a young man just leaving school, was stricken with consumption; medical skill, and all other means at hand were alike helpless to stay the ravages of the disease; finally the heart broken parents, having heard something of the curative qualities of our dry atmosphere and hoping that it might yet save him, brought their boy to Colorado Springs, and later to Arizona, but it was too late. For him yes, but for suffering humanity no. The great surgeon bereft of his only child turned his attention to a study of the terrible disease which is carrying off the flower of our young people by the thousands, and as a result of this investigation founded the greatest benevolent movement the world has ever known a national colony and sanitarium for persons suffering from this disease

Plan and Extent.

The plan of the institution as given by them in their talk at the opera house, and which our people here have heard from Col. P. R. Smith, is to build, on the land owned by the association, a rural colony provided with an administration building, hospital for those who wish to occupy it, cottages and tents conveniently located so as to be in communication with the administration building. To have these supplied with pure water and everything necessary for comfort. To have a corps of the very best doctors to be found and a class of trained nurses always at the call of patients.

In extent the movement is world-wide, taking in alike rich and poor, high and low; old and young.

A Division and Arrangement.

At present the land is to be divided into four-acre lots one of which will be allotted to each church, benevolent association, and secret order who will be allowed to build cottages or erect tents for as many of their members as may wish to come and they will be supplied with water, medical attention etc., from the administration building. Each of these associations is represented by a member of committee here who will arrange to erect tents or provide other accommodations for members of that association, answer inquiries etc., thus providing care and attention for all who may come.

Commencement of Work.

At the meeting on Saturday it was arranged to begin the building of an administration building, sinking a well and dividing the grounds, which was placed in the hands of the business men's committee to look after, and they will doubtless begin the work at once so that it will only be short time until the grounds can be occupied. After this arrangement was made, Dr. Swope, speaking for the medical profession of the town said that they would lend their aid and support to the movement, thus insuring able medical attention from the start.

A Magnanimous Offer.

At the close of this meeting Mrs. Mary T. Clark, offered to allow the use of her ranch near town for the pitching of tents to accommodate any persons who should come before the well and buildings were completed, thus giving a temporary place with water shade trees etc., to carry on the work, until the more permanent work can be accomplished.

In another column is a list of the committee appointed to care for persons coming, and answer correspondence in regard to the work, should there be any organization not represented in this committee can receive recognition by writing to the editor of this paper or any of the persons named as the work is world wide and free for all.

Next week a more extended article will be published giving all details of the work and many developments.
